

They set the benchmark by which gospel groups are measured. They had a sound like no other. They were the most loved and popular gospel quartet of their generation. They were The Cathedrals!

Now, for the first time ever, five alumni members of the Cathedrals are reuniting to present a special Cathedrals Family Reunion CD featuring all-new recordings of some of the most loved and biggest hits of their career. In this once-in-a-lifetime collection, Scott Fowler, Ernie Haase, Mark Trammell, Danny Funderburk and Gerald Wolfe blend their voices together re-creating that classic Cathedral sound. The CD also features a few special recordings with members of the groups Ernie Haase & Signature Sound, Greater Vision, Legacy Five and The Mark Trammell Quartet.

This historic recording is being presented through a special partnership with IMC Management and StowTown Records. Landon Beene (IMC Management) states: "I loved the Cathedrals, they're the group that made me love this great, gospel music! To hear these five men come together and sing these songs is absolutely thrilling. I cannot wait for everyone to hear this."

The brand new studio recording will be released on Tuesday, November 12, 2013 to all digital and retail outlets but fans attending the Cathedrals Family Reunion Event this weekend in Fort Worth, TX will be the first ones available to purchase the recording.

A very limited number of seats are still available for the weekend and may be purchased by calling 877-392-9710 or online at www.IMCConcerts.com.
