**Artist: Dysart Family**

**Project Title: The Grace Of God**

**Label: Crossroads**

**Producers: Roger Talley**

It is always wonderful to see a family that loves the Lord and that is actively serving the Lord in a music ministry! The Dysart Family is one of those families and they include dad, mom, one daughter and four sons to make up this amazingly talented family. Their latest project is titled "The Grace Of God" and it has twelve great songs on it that you will very much enjoy!

The project starts off with a familiar song in Southern Gospel Music. The Dysart Family does an outstanding job singing "Walk Right Out Of This Valley." This upbeat song reminds us that with God, we can walk right out of that valley that we are in! "All I Need To Know" slows down the tempo quite a bit and this song has a beautiful message. It remarks how there are many things in life that we will never understand and know but really, all we need to know is that Jesus loves us and He is guiding us through each and every day. The dad of the group LeWain Dysart is also a songwriter and he wrote "A Miracle For You." What a beautiful message reminding us that God is working a miracle for your situation right now! Another song written by LeWain is next and "God's Love Is So Amazing" is a catchy little tune but it is also a great message about how amazing God's Love is!

LeWain continues the great songwriting with another upbeat song titled "Walk On Water." This song reminds us that we too can "walk on water" and accomplish anything when Jesus holds our hand and we put our trust in Him. The title song of the project was actually written by the Dysart's daughter, Kendra. "The Grace Of God" is an amazing song and this young lady has a bright future as a song writer and singer! "I Will Be Praying" is one of those songs you just want to sing along with! The song is a great promise to someone who is hurting that you will be praying for them. I believe that is one of the great promises that we can make as a Christian and I also believe it is one of the great honors we have to pray for others. LeWain is back as

the writer of the next song and "I'm Glad I Know" is a wonderful song reminding us how wonderful it is to know that we are saved and to know He is coming back soon!

I will admit that "Money Can't Buy" was a title that peaked my curiosity. The song is a wonderful melody about the great things that money cannot buy! All of those things are wonderful gift and blessings from God. "Nobody Else Can Move A Mountain" is a beautiful song reminding us that God is the only one who can do a miracle in our life. LeWain makes his final contribution in the songwriting ranks with "The Story Of My Life." What a unique song and it is one of those songs that you need to listen to from beginning to end to truly appreciate. Trust me when I say, you will love the message and the song! The project winds up with "Nothin' Better To Do." This is another upbeat song with a great message of how wonderful it is to follow after Christ in our life!

I am completely impressed with the Dysart Family! There is a lot of talent in the ranks of the family both on the singing and the songwriting side. Roger Talley produced the project and did a great job. The project has twelve songs and they all have good, strong messages and they are all delivered quite well by the Dysart Family. My favorite songs from this project are "The Grace Of God," "God's Love Is So Amazing" and "All I Need To Know." I would recommend that you get a copy of this latest project from the Dysart Family! They are uniquely talented and doing a wonderful job proclaiming the life-changing message of Christ!
