Artist: McKameys

Project Title: What If

Label: Horizon

Producers: Jeff Collins and Roger Fortner

The McKameys are a name that have been around Southern Gospel Music for a long time. Their list accomplishments are many and there is a long line of people who have been touched by their music and by their kindness. They have just released a brand new project and "What If" is another great project from this family group.

The project gets off to an upbeat start with "I'm Gonna Give It Away." It talks about giving away the light of Jesus within us. I love the message and it is a great start to the project. "Your Prayers Have Been Heard" is an awesome song about prayer. What a great concept prayer is and what a great thought to know that God does hear us when we pray. Next on the project is another great song that is titled "There Is A Peace." This song talks of the incredible peace that we can find in the midst of a storm through Jesus Christ.

"Where He Is" continues to carries on the encouraging message of this project. It reminds us that there is no reason to worry because eventually we will be spending our eternity where Christ is. Group member Sheryl Ferris wrote "While I Wait" which is the next song on the project. What a wonderfully crafted song that reminds us that we need to be telling others about Christ while we wait for Him to come back. The tempo picks up again with "I'll Give You Grace." I love the message of this song that reminds us that God will give us grace to handle every situation on this earth. The next song on the project is "Lift My Voice." I love this song because it reminds us that we can and should lift our voice to Christ even as we are going through troubles and trials.

McKameys - What If

"I Have A Home" is just simply an incredible song about going to Heaven! I cannot think of anything that should make a Christian rejoice more than the thought of going to Heaven. This song will do that as well as any I have ever heard! The title song of the project is "What If." It is another song written by Sheryl. What an astounding song that will make you think and really take stock of your life. It asked, what if we really believed in all of those promises in the Bible. It is just an incredibly well-written and presented song. The project closes out with "Work The Field." The song is a great encouragement to get out there and work in the fields for Christ! A great ending to a very good project.

The McKameys have been around for as long as I have been a fan of Southern Gospel Music. The group has always been known for singing solid, well-written songs with incredible messages of encouragement and strength. This project is no different. The project has ten great songs, is well produced and presented. My favorite songs from this project are "While I Wait," "I Give You Grace" and "What If." "What If" has ten incredible songs that are just waiting to bless the listener time and time again. The McKameys never disappoint their fans, whether live in concert or on a recorded project and this project is another in a long line of encouraging and outstanding project from the McKameys.
