Can you believe it has been 15 years since Greater Vision began their incredible music ministry? I remember their very first project and I remember a lot of quality projects and songs over the year. A few faces have changed in the group but really, for 15 years, the changes have been minimal.

This project celebrates the 15 years of Greater Vision with (appropriately enough) 15 of their best known songs. "My Name Is Lazarus" is a favorite of mine and it the lead song on the project. This is followed by "With All The Many Miracles," "So Much God" and "Just Ask." "I Believe" is another favorite of mine and that is the next song on the project.

One of the earlier songs that I remember was a terrific one titled "Common Garments" and it really told us all about how God uses everyone for His Work. I loved the message then and I loved hearing it again on this project. The next songs on the project are "Soon We'll See" and "He's Still Waiting By The Well." I love the older songs and Gerald Wolfe has a great voice so when you combine his voice with the Mosie Lister classic "Til The Storm Passes By" you have pure magic. The song is next on the CD and the performance is awesome. "He Is To Me" is a great upbeat song that is next.

XXXXXXXXXX
"A Pile Of Crowns" is the next song and is followed by "He'd Still Been God." "God Wants To Hear You Sing" is a favorite from mine from over the years. It was great to hear it again! "Just One More Soul" was a great song with one of the most powerful messages you have ever heard. The final song on this walk down memory lane is a recent hit titled "Faces."

I have enjoyed Greater Vision from their very first project. I was thrilled to see a project celebrating their 15 years of existence and I enjoyed reliving their many musical hits over the years. I hope and pray that there are 15 more great years for Gerald, Rodney and Jason. I couldn't pick favorites from this project if I had to. They are all very good and you should get a copy and relive these great songs today. For more information on Greater Vision, visit www.greatervisionmusic.com.
