This is the second project received in our offices for review by Dewayne Holt. The project contains ten songs that were all written by Dewayne. The project seems to do a good job building on the foundation set by his previous project.

"Grace Made A Way" starts the project off on a very positive note talking about God's Grace. The next song on the project picks up the pace a little. The song is titled "What A Hallelujah Morning" and it talks about that day that Christ comes back for all of the believers. The title song of the project is next and "It's All About You Lord" reminds us of how important God is in our lives.

The tempo picks up once again with "A Million Years." I enjoyed the song immensely and I would imagine all listeners will as well. The next song is a ballad titled "Tomorrow." The song is a story song that tells a sad story of the person who keeps putting off giving his life to Christ until tomorrow. "Papa Said" is the next song. "His Love Is Unconditional" is a song about a great truth in Christianity. God does love us and it doesn't matter what we've done or where we've been. That song might be the best on the project.

"He Lifted Me Up" reminds us of the power of God to pick us up from wherever we are. "Run To Him" is popular song title in Gospel Music. In the case of Dewayne's song, it reminds us that we often run to God when it seems like all is lost. The best news is that He is always there and waiting. The final song on the project is "You Bring Me Through." The song has a great message of hope for those going through a trial that God will always be there to bring you through the trial.

Dewayne Holt has a good project here. The songs were all written by Dewayne and they all seem to be good songs. The production is good, as most Eddie Crook produced projects are. Dewayne's style will appeal to the Christian Country fan as well as the Southern Gospel fan. My favorite songs from the project are "A Million Years," "His Love Is Unconditional" and "He Lifted Me Up." The entire project is worth a listen!
