Artist: Greg Logins and Revival

Project Title: Live

Label: Independent

Producers: Greg Logins

I first met Greg Logins and Revival at a concert that I emceed a little over a year ago. I knew his name from his time with Charles Johnson and the Revivers but was not that familiar with him and did not know about the group at all. I found out that he was based, as I am, in New York State and from the moment that the guys hit the stage that night until they finished their set, I was mesmerized. The group was very good in concert that night and I later learned, from talking to Greg, that they were working on a new project that would be a tribute to Charles Johnson. Well, that project is here and I cannot wait to tell you all about it! The project was recorded live which only adds to the overall enjoyment of this recording.

The project starts off with the upbeat song "Put Your Hand In His Hand." I have always loved this song that encourages us to put our hand in God's Hand and let Him lead us through the storms and trials of this life. Greg wrote the next song, titled "God Is Still In Charge" and this song is a wonderful reminder that God is still in charge of my life. He sure is and I thank Him for that every day! Several of the songs on this project were written by Charles Johnson and "Holy City" is one of my favorite songs that He ever wrote. What an amazing picture this song paints of Heaven and what it will be like. "I'm Going To See God's Face" is the next song on this project and the song reminds us that, as Christians, we will see God's Face one of these days. I think we all look forward to that day!

As a Christian, we will find no greater friend than Jesus. Earthly friends will let us down from time to time but Jesus never will. The next song on the project talks about what a great friend Jesus is. It is titled "My Friend Jesus" and the message is just simply incredible in this song. Next on the project is "Time To Go Back Home." I remember this song from that concert when I first heard the group and I loved it then and I still love it! What a great song reminding us that if we are wandering into some things we should not be, it is time to go back home to Christ! "Sealed To The Day Of Redemption" is the next song on the project and it is another terrific song about Heaven. The group's current single is the great song titled "Until Then." What a tremendous song and message. It reminds us of our calling, as Christians, on this earth. Some great lyrics in this song that says "I'll tell the world Jesus lives, He still saves and He still heals and you still can find sweet refuge for your soul." That is what each and every one of us should be telling the world every day!

Another great song from the pen of Charles Johnson is "Going On With My Jesus." This song proclaims that no matter what this world throws at us, we are choosing to go on with Jesus! I love the message and the guys deliver a rousing performance on the song. "Power In The Blood" is another song written by Greg and anytime there is a song about the Blood of Jesus, I will usually love it! This is a good one! The great, classic song, "Where We'll Never Grow Old," is next. This song has some beautiful lyrics in it and what a great comfort to anyone with a loved one in Heaven. It also is a great comfort to those of us on this earth who experience getting older every day of our life. The final song on the project is "Thank You Lord." What a great song that thanks the Lord for being so good to us!

Greg Logins and Revival are a terrific bunch of guys! I love this project and the tribute to Charles Johnson and the Revivers. I was always a fan of that group and I am glad to see that Greg and the guys are keeping these great songs alive. The production, song selections and vocal presentations on this project are all very good. My favorite songs from this project are "Time To Go Back Home," "Until Then" and "Thank You Lord." The entire project is a wonderful, live concert experience and I am sure that you will want your very own copy!
